PROJECTS DONE

MEDI CONNECT

Mediconnect is a user-friendly platform connecting patients with hospitals for easy appointment scheduling, pharmacy access, doctor consultations, and information on hospital facilities. It streamlines healthcare services, making them more accessible and efficient.

BLOOD BANK USING SPRINGBOOT

Blood Bank Connection is a Spring Boot application designed to connect donors with blood banks and hospitals. It enables easy donor registration, nearby blood bank searches, donation scheduling, and real-time inventory management.

FLIGHT RESERVATION SYSTEM

Developed a Flight Reservation System implementing CRUD operations to manage bookings efficiently. The system enables users to create new flight reservations, view available flights and booking details, update existing bookings, and delete reservations as needed..

E-COMMERCE WEBSITE

Developed an e-commerce website featuring user-friendly navigation and responsive design. The site includes product listings, a shopping cart, enhancing the online shopping experience with efficient product search, and robust customer support.

HOSPITAL MACHINE AVAILABILITY AND IT'S SUPERVISION

Designed and optimised a robotic control system, realizing a 12% performance improvement. Coordinated testing and validation, ensuring compliance with industry standards. Provided technical expertise, contributing to a 15% reduction in system failures.
